A Message to All Garden Lovers

IT GIVES US pleasure to send you our twenty-first annual catalog and to wish you a successful garden year. During the past year, in spite of many difficulties, we were able to test a number of the lesser known varieties of perennial flowers; some were very satisfactory.

Hardy Prolific, a medium-sized Daisy of the Elder type, was a very heavy producer. Ophelia is a nice-sized one for cutting and has good substance. Double Supreme is not really double but has fine substance and blooms freely for a long period.

In the Dianthus group we were pleased with the dwarf Little Joe. The crimson flowers were very large for a small plant. It bloomed freely and is recommended for edging or the rock-garden. Bobby had deep pink flowers with a crimson eye, but did not bloom so freely. Perkins Double White has an abundance of carnation-like white flowers with a few touches of pink in the center, is extremely fragrant, and blooms a long time.

Geum Wilton Ruby has attractive ruby-colored flowers and bloomed over a long period. Lythrum The Beacon is a bushy plant growing about 2 feet tall and producing long stems of pink flowers which keep well when cut. It bloomed from July till hard freezing.

The Minnesota strain of Chrysanthemums, originated by Dr. Longley at our State Experiment Station, is still in the lead of garden varieties for our climate. Maroon 'n' Gold is a beautiful large-flowered garden variety, a little short stemmed for cutting. Of earlier introductions, Chippewa, Butterball, and Glacier are leaders. Dee Dee Ahrens and Violet are being introduced this year. Violet is of medium height with full double, violet flowers; Dee Dee Ahrens is a tall white for cutting.

Three of the seven new Mums added to our list deserve mention. Avalanche has large, fully double white flowers with cream-colored center petals. It is very early and is fine for cutting. Major Cushion is very compact and covered with pink flowers. Scarlet Crimson is a beautiful shade of red.

This year we are offering a red Cushion Mum that we feel will give entire satisfaction. Our plants were fully 2 feet in diameter and completely covered with red flowers. The buds were more frost-hardy than many varieties of Mums. Manantico is a very showy early single Chrysanthemum. The plant is strong and the bloom of good substance. About fifteen varieties of English Mums will be under trial at our nursery this year. A few plants will be available for those who want to try them.

We are looking forward to seeing many of you who have been unable to visit our nursery the past few years, and hope to be able to supply some of the plants for your garden.

PERKINS BROS

.. STILLWATER ROAD

.. SAINT PAUL 9, MINN.

A PLENTIFUL supply of Chrysanthemums in your garden will make it possible for you to have bouquets like this for your home. The warm, glowing colors and lavish bloom of the hardy outdoor Mums make them prime favorites. A good plan is to grow rows of them especially for cutting, among your vegetables or in a special bed by themselves. If you want blooms late in the season, be sure to plant in a protected spot. And had you considered growing particular varieties to harmonize with the decorative scheme of your home? Try it this year and see what fun it is.

HEMEROCALLIS

Use Daylilies to add brightness to your garden

The many good characteristics of Daylilies make them one of the most useful groups of all perennials. Their slender grass-like leaves and graceful flowers will add charm to any garden or shrubbery border. As well as being profuse bloomers, they are very hardy and require little attention after becoming established. They will grow in full sun or partial shade.

Anna Betscher. 42 in. July-Aug. Lovely, uniform pure deep orange-yellow self-colored blooms. Each 40c.

August Pioneer. (Stout.) 34 in. Aug.-Sept. A profuse bloomer. Flowers small, orange with a reddish flush. Each \$1.00.

Circe. (Stout.) 36-48 in. July. Soft lemon-yellow flowers of medium size. Each 60c.

Dauntless. (Stout.) 30 in. July-Aug. Pale yellowish orange with pastel blended mid-zone; large, wide and overlapping petals. Flowers of fine substance. Each 75c.

Dominion. 3½ ft. June-July. Extra large, full flowers with rich red coloring of three-toned pattern. Remains open evenings. Each \$3.00.

Dr. Regel. 24 in. May. Handsome rich orange-yellow flowers. Each 35c.

Duo Blooms. 24-30 in. June-Aug. Deep yellow blooms. There are two distinct sets of flowers. Each 35c.

Flamid. June. Flowers yellow-orange inside, bronze on the outside. A prodigious bloomer. Each 40c.

Gold of Ophir. 4 ft. July-Aug. Waxy golden yellow flowers on strong stems. Dark green foliage. Long period of bloom. Each 35c.

Gypsy. 42 in. July-Aug. Deep orange with slight red shading. Each 35c.

Hyperion. 4-5 ft. July-Aug. A very beautiful soft yellow-flowered, fragrant Daylily. Plant vigorous. Each 50c.

Imperator. 40 in. July-Aug. An English hybrid, with star-shaped flowers 6 to 7 inches in diameter. Rich orange-red with clear yellow throat. Each 40c.

J. S. Gaynor. 3 ft. July-Aug. Fine, firm, apricot-colored flowers. One of the best. Each \$1.25.

Kwanso. 4 ft. July-Aug. Vigorous-growing plant with rich orange-colored double flowers. Each 35c.

Lemon King. 48 in. July. Soft yellow flowers; recurved, somewhat twisted petals. Each 50c.

Linda. (Stout.) 36 in. July-Aug. Pale yellow with a rose-colored zone at the throat. Each \$1.00.

Mikado. 36 in. June-July. Orange flowers with a mahogany-red spot on each petal. Each 50c.

Modesty. 36 in. June-July. Medium-sized flowers of a glorious shade of chrome yellow. Each 50c.

Moonbeam. 5 ft. Especially desirable for background. Firm stems support the cream-colored flowers. Each \$2.00.

Mrs. W. H. Wyman. 42 in. July-Aug. Lovely light lemon-yellow blooms. Each 40c.

Patricia. (Stout.) 36 in. July. Flowers soft greenish yellow, with recurved petals; fragrant. Very beautiful. Each 75c.

Rajah. 3½ ft. July-Aug. Large, gaily colored English red blooms, with conspicuous eye-zone; throat pale orange. A heavy bearer. Each \$1.00.

Serenade. 4 ft. June-July. Light shade of yellow and pink. Petals twisted and crinkled. Flowers medium size. Each 85c.

Sunset. 42 in. July-Aug. Bright crimson-maroon flowers with deep yellow throat. Each 60c.

The Gem. 30 in. July. Deep yellow flowers. Each 35c.

Vulcan. 2½ ft. Velvety maroon, golden midrib. Each \$1.50.

Winsome. Flowers a delightful soft yellow. Long blooming period. Makes a splendid garden specimen. Each 50c.

Leonian Hybrids. 3-4 ft. Mixed colors. Each \$1.25.

CHRYSANTHEMUMS

The Glory of Your Autumn Garden

THE MINNESOTA GROUP

Here are offered twenty-one new varieties of garden Chrysanthemums developed by Prof. L. E. Longley at the University of Minnesota. They are admirably adapted to locations subject to early frosts because of their extra early flowering habit, long blooming period, unusual colors and high degree of hardiness. All are suitable for cutting and have long-lasting qualities.

1941-1943 Introductions

Each 40c; 3 for \$1.10; 6 for \$2.00

Boreas. An early double white. The flowers are about 2 inches in diameter and are produced in great profusion on long stems suitable for cutting. The plant is strong and of medium height.

Chippewa. Bushy plant 20 inches tall or more, with many stems. Flowers aster-purple, $2\frac{3}{4}$ inches across, in large clusters; semi-double to double, aster-like and incurved. Very showy and good for cutting. Early to midseason. A fine variety.

Duluth. A rather tall, upright type with semi-double, lemon-yellow flowers 2 inches in diameter. Very floriferous, blooming early and continuing for a long period.

Harmony. In a general way this would be classed as a bronze-flowered variety, although the color of the flowers on the same plant varies from yellow to Brazil-red. During the early season it is yellowish, later strawberry-pink and with the cool weather it becomes Brazil-red. At times all the colors are present at once. The plant form is similar to that of the Cushion type; flowers $2\frac{1}{4}$ inches in diameter.

Moonglow. A low, bushy plant with dark green, glossy leaves. An early bloomer having double, deep lemon-chrome flowers $1\frac{3}{4}$ inches in diameter, covering the plant for several weeks.

Chrysanthemum, Spoon Type

1941-1943 Introductions, continued

Pipestone. A low, robust and spreading type of plant with semi-double Brazil-red to pinkish scarlet flowers, that reach $2\frac{3}{4}$ inches in diameter. A very free-blooming, early variety.

Purple Star. Very tall and upright in growth, with long stems; floriferous. Bright dahlia-purple flowers, semi-double to nearly double, the rays formed in such a way as to make the flower star-like in appearance; 2 inches in diameter. Blooms over a long period, from midseason to late, and is suitable for cutting.

Red Gold. Plant medium tall, very stiff and upright. Flowers double, 2 inches in diameter, scarlet to Brazil-red, resembling pompon dahlias and somewhat like Early Bronze Mum, but brighter and more reddish. Early to midseason or later. An outstanding selection that should be planted in many gardens.

Red Wing. A low, upright plant with rather long stems. The semi-double Pompeian-red flowers are $1\frac{3}{4}$ inches in diameter and are produced very early.

Sun Red. Medium tall plants with long stems and large, semi-double flowers over 3 inches in diameter. Habit of plant and form of flowers much like Chippewa but color is bright Brazil-red. Blooms sparingly early in the season but very heavily midseason to late. An excellent variety to brighten the late garden.

Waterlily. Plant is upright, narrow, medium tall. Semi-double white flowers with four rows of rays. Suggests a waterlily in full bloom. Early.

Welcome. One of the earliest to bloom. The plant is irregularly bushy and rather low. The bright mallow-purple flowers on long stems are semi-double and measure $1\frac{3}{4}$ inches in diameter.

1944 Introductions

Each 50c; 3 for \$1.25

Butterball (Minn. No. 41-1-60). Low compact plant with flowers borne freely on moderately long stems. The flowers are ball-like in form, with rays incurved, $2\frac{1}{2}$ inches in diameter, dark lemon-chrome in color. Starts blooming about August 15. An outstanding variety in our trials.

Glacier (Minn. 41-54-59). A large-flowered type of tall, upright habit with double pure white flowers 3 inches in diameter, carried in loose clusters on long stems. A very good variety.

Redhawk (Minn. 40-140-34). Plant upright in habit, of medium height. Flowers are in clusters on long stems, double, with some rays quilled, 2 inches or more in diameter. The color is dragon's-blood-red to Brazil-red. Starts blooming in mid-August.

Redwood (Minn. 41-8-357). A very low compact type of plant, bearing semi-double flowers 2 inches in diameter. The color varies from carmine to oxblood. The season is mid-August to frost.

Snowball (Minn. 39-30-8). The plant is medium in height and loose in habit, with double flowers which are ivory at first, later becoming pure white. The blooms are $2\frac{1}{2}$ inches in diameter. Early.

Collection No. 3

One each of the 1944 introductions \$2.00
for

PLANT COLORFUL CHRYSANTHEMUMS for a SHOWY GARDEN

1945 Introductions

Maroon 'n' Gold (41-81-16). This variety forms a rather low plant, bearing the flowers in large trusses. The blooms are large, $3\frac{1}{2}$ inches or more in diameter, full, double, incurved. Rays are Brazil-red to maroon in color above, and golden on the under side. Blooms early and freely. Each 65c.

Aurora (41-8-88). A low compact type of same habit of growth as Harmony. The flowers, borne in masses, are $2\frac{1}{4}$ inches in diameter, and dragon's-blood-red in color, becoming lighter as they age. They resemble those of Harmony, but are larger, more double, and brighter. Each 65c.

COLLECTION NO. 4. One each of the 1945 Introductions for \$1.25.

1946 Introductions

Dee Dee Ahrens (41-49-45). A tall upright plant bearing a multitude of flowers on long, slender, stiff stems. Flowers double, 2 to $2\frac{1}{4}$ inches in diameter, and pure white. Mid-season to late. Each 75c.

Violet (41-788-171). Plant rather spreading, recumbent the first year, but very stiff and upright and moderately tall the second year. Blooms are fairly abundant. Very full, double flowers, dahlia-like, incurved, deep amaranth-purple to pansy-purple, 3 inches in diameter. Midseason to late. Each 75c.

The Chicago Strain

Early Harvest. Plant low growing, with double flowers of glowing mahogany-orange, $2\frac{1}{2}$ to 3 inches in diameter. Aug. to Oct. Each 60c.

Harbinger. Double flowers with incurved petals of primrose-yellow. Flowers borne in clusters. Each 50c.

Heatherbloom. Plant vigorous, of medium height. Flowers double, $2\frac{1}{4}$ inches in diameter, heather-pink in color. Each 60c.

Polar Ice. Clear, glistening blue-white flowers $2\frac{1}{2}$ to 3 inches across; thick heavy upright stems, 20 inches tall. Each 50c.

Robert Brydon. Double dark garnet-red flowers $2\frac{1}{2}$ inches across. Plant has a dense bushy habit 18 to 20 inches tall. Free blooming. Each 50c.

Zantha. Clear canary-yellow, double flowers. Each 60c.

COLLECTION NO. 5. One of each, \$3.00.

Other Popular Varieties

Avalanche. 2 ft. A desirable early-blooming, large-flowered, double white variety, the center petals being cream-colored. The $3\frac{1}{2}$ -inch flowers are borne on strong stems; fine for cutting. Each 60c.

Dahlia-Flowered. A low-growing bushy Chrysanthemum. Petals are long and narrow, many being twisted and curled. Color is dark wine-red. A late variety. Each 40c.

Eugene A. Wander. Extra-large, double, glistening yellow flowers on bushy 18-inch plants. Each 40c.

Garden Queen. A striking combination of large salmon-pink flowers suffused with crimson-rose, 3 inches in diameter. Each 35c.

Geronimo. Well-branched plants with $2\frac{1}{2}$ -inch, double bronze-yellow flowers. Late pinching back to delay blooming is recommended. Each 35c.

Little Eskimo. Plant low growing. The double pure white flowers are ball-shaped, $1\frac{1}{2}$ inches in diameter. Each 50c.

Manantico. A plant of medium height, a free producer of single red or dahlia-purple flowers, $2\frac{1}{2}$ inches in diameter. It is bright and effective in the garden. Each 35c.

Major Cushion. Low-growing, compact plants with salmon-pink flowers. Each 40c.

Prof. Sam Williston. Dark red, semi-double flowers in great profusion. Each 60c.

Pure Gold. Plants 18 inches to 2 feet tall, having fully double yellow flowers up to 3 inches in diameter. Early. Each 40c.

Chrysanthemum, Pink Cushion

Pygmy Gold. A dwarf pompon type producing quantities of miniature blossoms. The color is clear golden yellow. Commences to bloom in early September. Each 35c.

Santa Claus. Grows taller than the Cushion Mums and produces an abundance of dark red flowers. Late. Each 35c.

Scarlet Crimson. New. An excellent red-flowered Chrysanthemum of the Cushion type. Each 40c.

September Bronze. Pompon blooms with the warm bronze tints of autumn; petals have a golden edge. Each 35c.

Youdath's Pride. Fully double flowers of orange-bronze; 2 inches in diameter. Each 35c.

Cushion Chrysanthemums

Bushy plants of low to medium height, producing an abundance of flowers. These varieties are also sold under popular "trademark" names.

Pink	Yellow	Bronze	Early Red	White
Each 35c.; 5 for \$1.50				

Four Interesting Seedlings

41-78A-35. A low-growing plant that blooms early and freely. Spoon-type flowers of a pink shade. Each 40c.

41-72-10. Fully double yellow flowers 2 inches in diameter, on long stems; late. Each 40c.

5338. A plant of medium height with bright clear yellow double blooms. Each 40c.

5302. Large bushy plants about 2 feet tall, spreading. The single flowers, nearly 3 inches in diameter, are of a beautiful salmon-pink with yellow center. Many have two rows of petals. Starts blooming in September. The past two years this variety made an unusually attractive display at our nursery. Each 40c.

BEAUTIFUL PERENNIALS

Aster, Adorable

Achillea (Yarrow)

Tomentosa aurea. 6 in. Yellow flowers above close mats of silver-gray foliage. Each 35c.

Aconitum (Monkshood)

Fischeri. 2 to 3 ft. Sept. Blue flowers shaped like a monk's hood. The plant prefers a rich soil and will grow in sun or shade but the flowers will last longer in a shady place. It needs some winter protection. As Aconites contain poisonous substances, they should be kept away from children. Each 35c.

Alyssum (Basket of Gold)

Saxatile compactum. 1 ft. One of the earliest flowering plants; suitable for the border or the rock-garden. It has a bright spreading cluster of golden yellow flowers. Foliage gray-green. When ripe the seed-pods have a lace-like appearance and may be used in winter bouquets. Each 35c.

Anchusa (Alkanet)

Dropmore Variety. 3 to 5 ft. Blooms in early summer and later if first flowers are cut as soon as wilted. Foliage rough and hairy, slightly gray. Flowers rich gentian-blue, in loose panicles. A rather coarse-appearing plant but fine in masses or as a border. Does best in partial shade. Each 30c.

Myosotidiflora. A dwarf form from Russia. Clusters of large leaves and bright blue, forget-me-not-like flowers. Each 40c.

Aquilegia (Columbine)

Copper Queen. 18 in. Flowers copper-red with straw-colored corolla. Each 40c.

Crimson Star. A dwarf variety with large crimson and white flowers. Each 35c.

Giant Yellow. A long-spurred English strain. Each 40c.

Longissima. Yellow flowers with very long spurs. Each 40c.

Mrs. Nichols. Flowers blue and white. Each 40c.

Mrs. Scott Elliott's Hybrids. A refined long-spurred strain. Includes many choice clear colors. Each 35c.

Snow Queen. Extra large, pure white flowers. Each 40c.

Anthemis (Yellow Daisy)

Moonlight. 2½ ft. A new variety of the hardy Marguerite producing pale yellow flowers over 2 inches in diameter, all summer. Each 35c.

Arabis (Rock Cross)

Alpina. 6 in. A low-growing plant especially suited for edging or the rock-garden. Foliage is a gray-green. In early spring the plant is covered with masses of white flowers. Can be used for cutting. Each 35c.

Rosea. Similar to above. Flowers pink. Each 35c.

Armeria (Sea-Pink)

Bees' Ruby. Bright red flowers. Each 35c.

Glory of Holland. 2 ft. Clear deep pink flowers the size of a silver dollar. Each 50c.

Laucheana. A tufted plant with grass-like leaves and bright rosy flowers all summer. Low growing. Each 35c.

Artemisia (Sage-Brush)

Lactiflora. 3 ft. Aug.-Sept. A tall-growing plant with finely cut foliage and heads of fragrant white flowers. Good for cutting. Each 35c.

Silver Beauty. 3 ft. A white-leaved plant used for contrast. The silvery flowers are fine in bouquets, and may be dried for winter use. Each 35c.

Asters (Michaelmas Daisies)

Adorable. 4 to 5 ft. Sept.-Oct. A hardy Aster with habit and growth similar to that of Harrington's Pink. Flowers are salmon-pink. Each 75c.

Beechwood Challenger. A semi-dwarf variety with small crimson flowers which completely cover the plant. Very showy. Each 35c.

Blue Plume. Rich deep purple, nearly double flowers. Suitable for cutting. Each 40c.

Gayborder Blue. Clear intense blue flowers with bright yellow eye. An excellent tall border variety and a good cut-flower. Starts blooming in September. Each 40c.

Hilda Ballard. A strong-growing, branching variety with rich green foliage. The enormous flowers are of a beautiful opalescent mauve color. Each flower has a deep fringe of rays which are particularly soft in appearance. Each 40c.

Mt. Everest. 3 to 4 ft. An outstanding white Aster. Each 35c.

Palmyra. Medium height; semi-double, pure pink flowers making up into perfect pyramids. Each 50c.

Purple. 5 ft. Large purple flowers. Each 30c.

Red Rover. Flowers reddish. Compact habit, free blooming. Each 45c.

Violetta. 2 ft. During September the plant is completely covered with semi-double, deep rich blue flowers. Each 75c.

Astilbe

Fanal. 1 to 2 ft. Feathery spikes of fiery crimson flowers in May and June. Foliage attractive and good looking at all times. Each \$1.00.

Gloria. 1 ft. A beautiful low-growing variety producing many spikes of pink flowers. Each 50c.

Pink. A mixture of pink varieties. Each 40c.

Baptisia (False Indigo)

Australis. 3 ft. Dark blue, pea-shaped flowers in June. Very attractive foliage all summer. Needs considerable space as it gets older.

Seedlings. Each 20c.

Betonica (Betony)

Grandiflora. 2 ft. June-Aug. Tufts of dark green foliage with rose-purple flowers on long stems. Each 40c.

For best results use 3 plants of a kind in a group

PERENNIALS — MAINSTAY OF THE SUMMER GARDEN

Boltonia (False Chamomile)

The Boltonias are of easy culture, growing in any soil and even in partial shade. To produce large flowers divide the clumps every three years, or cut out some of the stems in the spring. The head of the plant is wide spreading and bears many single aster-like flowers. 3 to 4 ft. high. **Pink or White.** Each 35c.

Campanula

Carpatica Hybrids. Harebell. 1 ft. A very satisfactory flower for the rockery or edge of the hardy border. It is perfectly hardy, and will grow in either sun or shade. The bell-shaped flowers are borne on long slender stems from early summer until frost. Each 35c.

Garganica. 5 in. Compact, tufty plants. The star-shaped blue flowers have a white eye. Each 40c.

Telham Beauty. Peachbells. 2 ft. Many large beautiful light blue bell-shaped flowers hanging from each stem. Blooms over a long period. Each 40c.

Wedgwood. Similar to above except that the flowers are a deep violet-blue. Sprays of buds may be cut and put in water. Each 50c.

Punctata. 28 in. Plants form rambling foliage mats with flower stalks of varying height, from which hang big pendent bells. Creamy pink to purple. Each 40c.

Carnation

King of the Blacks. 20 in. Very dark red. Each 35c.

Triumph Rose. 20 in. Rose-colored flowers. Each 35c.

Centaurea (Knapweed)

Macrocephala. 3 to 4 ft. July-Aug. A rugged, upright-growing plant, bearing large thistle-like golden yellow flowers. May be used as cut-flowers. Each 30c.

Clematis

Davidiana. 3 ft. A shrub-like perennial with large leaves, producing deep blue, sweetly scented flowers in great profusion. Very hardy, pest free and easily grown in any soil. Each 75c.

Coreopsis

Lanceolata grandiflora, Mayfield Giant. 2 to 3 ft. Large, bright yellow daisy-like flowers on long stems all summer. Each 35c.

White Daisies

Elder Improved. 3½-inch flowers on 20-inch, stiff stems. Each 35c.

Alaska. 2 to 3 ft. Summer. One of the best Shasta Daisies. Large white flowers, 4 to 5 inches in diameter, on long stems. Each 35c.

Giant Daisy. A tall-growing fall-blooming white Daisy. Very hardy. Each 35c.

Hardy Prolific. A very free-blooming white Daisy with 3-inch flowers. Each 35c.

June Marguerite. A nice-sized Daisy on long stems. Free flowering. Each 35c.

New White Daisies

Double Supreme. A fine semi-double Daisy of good substance. Flowers 3½ inches, on 24-inch stems. Each 40c.

Etoile d'Or. If the flowers are cut, this variety blooms continuously from June until mid-September. Each 40c.

Ophelia. An excellent Daisy with medium-sized flowers of good substance. Each 40c.

Sensation. Large flowers with small pale yellow centers and several rows of pure white petals. Each 50c.

Supreme. A popular single Daisy with 4-inch flowers on 18-inch stems. Each 40c.

White Crest. A good garden Daisy suitable for cutting. Flowers 4 inches in diameter, on 20-inch stems. Each 40c.

White Swan. Medium-sized flowers on wiry 18-inch stems. Each 35c.

Delphinium, Giant Pacific, Pure White

Beautiful Delphiniums

Giant Pacific. This is an American production, noted for its long spikes and huge flowers of fine texture and color. It is more resistant to disease than many other strains.

Blue Shades, Mixed. Each 50c.

Pure White. Each 50c.

Guinevere. Light pink-lavender with white bee. Flowers 2½ to 3 inches in diameter. Each 50c.

Summer Skies. Light blue with white bee. Flowers medium size. Very prolific. Each 50c.

Blackmore & Langdon. An unsurpassed strain of English hybrid Delphiniums. Every plant produces an excellent spike of flowers. The color-range is fine and the colors are clear and bright. There is a good proportion of large double and semi-double flowers. 1-yr.-old plants, each 15c.

Belladonna. 2 to 3 ft. We are growing an improved strain of this ever-popular light blue Delphinium. The flowers are not as large as in the hybrid strains, but the plant bears many more spikes of flowers. Each 35c.

Bellamosum Improved. Similar to Belladonna. Flowers dark blue. Each 35c.

Lamartine. Fairly deep extra bright marine-blue. Similar to Belladonna except in color. Each 35c.

Wrexham. A well-known English strain of hybrid Delphinium. Mixed colors. Each 40c.

Dicentra (Bleeding-Heart)

Spectabilis. 1 to 2 ft. Spring. Favorite hardy perennial plants with deeply cut foliage and long racemes of graceful pink heart-shaped flowers. Needs part shade. Each \$1.00.

Eximia. Plumy or Fern-leaved Bleeding-Heart. 15 in. Blooms all summer. Foliage finely cut and very attractive. Plant in a shady place away from strong wind. Each 50c.

Dianthus, Old Spice

(Pat. 499)

A choice hybrid old-fashioned garden Pink with outstanding qualities. Its habit of growth is neat and cushion-like; flower stems about a foot tall. The beautiful double carnation-like flower is a choice salmon-pink and very fragrant. Blooms profusely. Each 60c.; 3 for \$1.50.

For best results use 3 plants of a kind in a group
All prices in this catalog are subject to change

PERKINS BROS. PERENNIALS ARE BLOOMING-SIZE PLANTS

Dianthus (Pinks)

The delightful sweet-scented garden Pinks are always welcome in any garden. They are easy to grow and give a large number of flowers for cutting.

Allwoodi alpinus. 18 in. Glossy leaves; flowers of medium size, in various shades of pink. Each 35c.

Crimson King. A green-leaved double red Pink or garden carnation; blooms all summer. Only semi-hardy but a very satisfactory plant. Each 30c.

Jock Hybrids. A low-growing double-flowered Pink. Blooms very profusely. Color deep pink. Each 35c.

Perkins' Double White Pink. Blue-green foliage. Flowers double, 2 inches in diameter, white, slightly speckled with red in the center. Fragrant. Blooms most of the season. Each 35c.

Plumarius semperflorens. 1 ft. An everblooming hardy garden Pink. Blooms most of the summer. Mixed colors. Each 35c.

Spring Beauty. Double-flowered grass Pinks in a beautiful range of color. Very fragrant. Each 35c.

Winteri. A Pink of striking habit. Fragrant blooms of pure color. Compact habit. Each 40c.

New Pinks

Bobby. 8 in. A compact-growing gem with glaucous foliage and large flowers of deep pink with crimson eye. Each 40c.

Bristol Purity. 1 ft. Similar to above, with double white flowers. Each 40c.

Little Joe. 6 in. A fine free-blooming dwarf Pink with large crimson blossoms. Each 40c.

Funkia (Plantain-Lily)

Lanceolata. Aug.-Sept. Suitable for shade or sun. Flowers lavender. Each 35c.

Spp. A broad green-leaved form with lavender flowers on tall stems. Each 35c.

Subcordata grandiflora. Aug. Large leaves; pure white lily-shaped flowers. Plant in shade. Each 50c.

Thomas Hogg. *New.* A strong-growing variety for shade or sun. Likes moisture. Large clear leaves with a silver edging; lavender flowers. Each 40c.

Variegata. Variegated foliage and lavender flowers. Each 30c.

Gaillardia (Blanket-Flower)

Showy, very free-blooming perennials, growing from 2 to 3 feet tall.

Dazzler. Large golden yellow flowers; rich maroon center. Each 35c.

Portola Hybrids. The flowers are very large, brilliant scarlet intensified by golden yellow tips. Each 35c.

Geum (Avens)

Fire Opal. Dazzling orange-scarlet flowers often 3 inches across, produced abundantly. Very hardy. Each 40c.

Wilton Ruby. Rich ruby-red flowers. Each 50c.

Gypsophila (Baby's-Breath)

Bristol Fairy. We recommend this choice double-flowered variety as being far superior to the common single Baby's-Breath. Blooms all summer. Established plants are about 3 feet in diameter when in bloom. Large plants, each 75c.

Oldhamiana. Tang'es of airy, misty light pink blossoms with white throat. Florets $\frac{1}{4}$ inch in diameter. Blooms in fall. Each 35c.

Rosy Veil. A dwarf pink continuous-blooming Baby's-Breath. Each 50c.

Dianthus (Pinks)

Heliopsis (Orange Sunflower)

Lemoine's Giant. 3 ft. A very brilliant border plant resembling a small sunflower. Bright yellow flowers, single to double. Blooms over a very long period and makes a good display in the border. Suitable for cutting. Each 35c.

Heuchera (Coral-Bells)

Pink Pearl. A tall-growing variety with stems 2 feet long, bearing large heads of deep old-rose florets. Blooms over a long period. Each 50c.

P. Red. A good red variety. Each 50c.

Queen o' Hearts. *New.* Deep glowing coral-scarlet flowers, large and abundant. Long period of bloom. Each 50c.

Sanguinea. $1\frac{1}{2}$ ft. July-Aug. Crimson-scarlet flowers. Each 40c.

Hibiscus (Mallow)

Plants 3 to 5 feet high, bearing large cup-like flowers similar to hollyhocks. **Red, Pink or White.** Each 35c.

Iberis (Candytuft)

Queen of Italy. A dwarf evergreen plant with rosy lilac flowers in spring and early summer. Each 35c.

Sempervirens. 1 ft. Rich dark green foliage, covered with white flowers in the spring. Does well in light shade. Each 40c.

Isatis (Golden Baby's-Breath)

Glauc. 2 to 4 ft. Foliage silvery gray-green. Cloud of fine yellow flowers in July. Each 35c.

Lavandula (Lavender)

Munstead Strain. Used in making sweet bags and sachets. Large, sweet-scented blue flowers in abundance. Early blooming. Each 35c.

Liatris (Kansas Gayfeather)

A clump of Liatris with its characteristic grass-like leaves and 5-foot spikes terminated with purple flowers in August will help to make your garden different. Each 35c.

PERKINS PERENNIALS FOR YOUR GARDEN

Linum (Flax)

Perenne. Blue Flax. Bush-like plants for an open, warm place. Plant early for best results. Produces an abundance of blue flowers daily throughout the summer, which usually close about noon. Very showy when planted in masses. Each 35c.

Heavenly Blue. Flowers larger than the above. Color is a luminous ultramarine-blue. Each 40c.

Lupinus (Lupines)

A well-established group of Lupines with their foot-long spikes of flowers will make a beauty spot in any garden during the early summer. Transplant early.

Russell Hybrids. An English strain having most unusual colors and combinations of color. Each 35c.

Lythrum (Loosestrife)

The Beacon. 3 ft. July-Sept. Long-lasting spikes of large clear deep carmine-red flowers. Each 50c.

Mertensia (Virginia Bluebells)

A beautiful early-blooming plant, with blue bell-like flowers fading to pink. Foliage disappears during the summer. Potted plants. Each 40c.

Monarda (Bergamot or Bee-Balm)

Scarlet. 2 to 3 ft. June-Aug. Attractive plants for the semi-shady or sunny border, bearing brilliant scarlet flower heads. Foliage fragrant. Each 35c.

Myosotis (Forget-Me-Not)

6 in. Everyone is familiar with the charming bright blue flowers of the Forget-Me-Not. They prefer partial shade and plenty of moisture. Blooms all summer. Each 35c.

For best results use 3 plants of a kind in a group

Summer-flowering Phlox

Summer-flowering Phlox

Groups of Phlox are especially useful for keeping your garden cheerful and colorful during the summer.

Augusta. (Pat. 252.) A strong-growing variety of medium height, with bronze-green leaves. Flowers brilliant cherry-red. An outstanding Phlox. Each 60c.

B. Comte. One of our standard Phlox. Flowers a rich dark amaranth-red. Each 35c.

Border Queen. An outstanding dwarf Phlox with large florets of watermelon-pink. Has been very satisfactory in our garden trials for several years. Each 35c.

Brilliant. Large trusses of crimson flowers. Each 35c.

Charles H. Curtis. A new Phlox of great merit. A strong grower with good clean foliage; flowers sunset-red. Each 45c.

Cheerfulness. A vigorous grower with panicles of salmon-orange flowers. Holds its color well. Each 50c.

Count Zeppelin. Flowers pure white, with a vermilion-red eye. Free-flowering and a good grower. Each 35c.

Enchantress. Bright salmon-pink with dark eye. Each 35c.

Ethel Pritchard. French mauve, almost blue. If possible, plant next to yellow or white flowers. Each 35c.

George Stipp. An excellent new Phlox having deep glowing salmon flowers with lighter eye. Does not fade. Each 35c.

Harvest Fire. Brilliant salmon-orange color on a vigorous bush. Disease-resistant foliage. Each 35c.

Lillian. A beautiful early salmon-pink. Each 35c.

Mary Louise. Pure white flowers, very large. Clean foliage and a prolific bloomer. Each 45c.

Miss Lingard. The best early white; pale pink eye. Continuous blooming throughout the summer. A most desirable variety. Each 35c.

Mrs. Jenkins. A standard late-blooming clear white. Each 35c.

Rheinlander. Fine old-time variety. Salmon-pink. Each 35c.

R. P. Struthers. Rosy carmine flowers. Each 35c.

Saladin. An attention-getting Phlox with vivid scarlet-red flowers with blood-red eye. Each 40c.

Special French. A late-blooming Phlox having flowers of a fine bluish pink with a salmon eye. Each 40c.

Starlight. A tall Phlox having violet flowers with a clear white eye. Each 35c.

Von Hochberg. Dark red. Each 35c.

Von Lassburg. A quick-growing, free-flowering white. Each 35c.

Phlox by Color

White; Pink; Red; White with Red Eye. Each 30c.

Spring-blooming Phlox

PHLOX subulata. Moss Phlox. A very attractive and satisfactory plant for the rockery or edge of the hardy border. Plant in groups of 3 to 6 plants and you will have a fine display of color about the end of May. Will grow in partial shade. **Rose, White and Purple.** Each 35c.

Blue Hills. A new blue variety. Each 35c.

PHLOX divaricata. A very early-blooming Phlox with lavender flowers. Good for planting among tulips as a ground-cover. This Phlox combined with arabis and yellow crocus makes an excellent combination to plant at the base of trees. Each 35c.

Papaver (Oriental Poppies)

Helen Elizabeth. Large La-France-pink flowers on 30-inch stems. Each 60c.

Olympia. Large, semi-double, flame-scarlet flowers. Each 50c.

Hybrids, Large-flowered. Mixed colors. Potted. Each 50c.

PERKINS PERENNIALS BRING COLOR TO YOUR GARDEN

Pardanthus (Blackberry-Lily)

Chinensis. An odd and unusual perfectly hardy perennial with green iris-like leaves. The small, daintily black-spotted orange lily-like flowers are borne on 24-inch stems. Seed-pods, when ripe, resemble blackberries. Each 30c.

Pentstemon (Beard-Tongue)

Barbatus torreyi. 2 ft. June-Aug. Spikes of bright scarlet-red bell-shaped flowers. An excellent cut-flower to arrange with delphinium. Each 35c.

Confertus, Blue. Showy clusters of blue blossoms. The tubes are touched with violet. Each 35c.

Garnet. A large-flowered dark red Pentstemon, blooming continuously until frost. Keeps well as a cut-flower. Needs winter protection. Each 50c.

Physostegia (False Dragonhead)

Summer Glow. Good plants for the sunny border; of easy culture. The deep pink flowers are borne on terminal spikes, and will last a long time when cut. Each 35c.

Platycodon (Chinese Balloon-Flower)

Grandiflorum. The Chinese Balloon-Flower gets its name from the interesting balloon-shaped buds which open into large bells. It blooms during the summer when there is likely to be a scarcity of flowers. The blooms are borne on 2 to 3-foot spikes and last a long time. All dead blossoms should be removed. As the Platycodons do not start growth until late in the spring, part of the old stem should be left on in the fall when cleaning the garden or a stake should be placed near it. This will prevent destroying the plant when working in the garden early in the spring. **Blue.** Each 35c.

Double. Flowers have two rows of petals. **Blue.** Each 50c.

Primula (Primrose)

Old-time garden favorites. Primroses prefer a situation protected from noon and afternoon sun and drying winds. Coolness, some shade, ample moisture, and medium light woodland soil gives best results.

Mixed Varieties. Each 35c.

Pyrethrum (Painted Daisy)

Showy daisy-like flowers on long stems. Suitable for cutting.

Kelway's Red. A fine variety. Bright red flowers with yellow centers. Each 35c.

Robinson's Hybrids. Large single flowers in shades of red, pink, and white. A fine strain. Each 35c.

Robinson's Dark Crimson. Aug.-sown seedlings. Each 20c.

Improved Painted Daisies

Buckeye. A fine double-flowered red variety. Each 50c.

Brilliant. Red, almost double blooms. Small plants, each 50c.

Rosary. Double bright pink flowers. Small plants, each 50c.

Silver Tips. Double red blossoms with tiny white markings at tips of the petals. Small plants, each 50c.

Ranunculus (Double Buttercup)

An upright double yellow Buttercup, blooming in early June. Flowers similar to the double feverfew. Good for cutting. Each 30c.

Rudbeckia

Golden Glow. 6 ft. A good plant for the rear of the garden. Bright yellow flowers similar to small double chrysanthemums. Each 25c.

The King. An improved purple Coneflower with broad, deep crimson-red petals and rich coppery bronzy cones. Each 50c.

White Lustre. Large white flowers. Grows about 3 feet high and blooms over a very long period. Flowers last a long time when cut. A good novelty. Each 75c.

Scabiosa (Pincushion-Flower)

Caucasica. 18 in. Lovely daisy-like flowers of a soft shade of lavender. Each 35c.

Sedum (Stonecrop)

Spectabile, Brilliant. 1½ ft. This group of Sedums with its thick heavy stems, leaves and flowers offers a strong contrast to other garden plants. Foliage light green; flowers deep rose-pink. Keep a long time as a cut-flower. Each 35c.

Spectabile variegata. Foliage variegated green and white. Each 35c.

Spurium. A low-growing Sedum suitable for ground-cover or the rockery. Red flowers in July. Each 35c.

Sempervivum (Hen and Chickens)

Tectorum. Rosettes of dark green leaves with reddish tips. Small rosettes grow out in all directions from the parent plant. Clusters of rosettes. Each 35c.

Spiraea (Dropwort)

Filipendula flore-pleno. 18 in. June-July Numerous corymbs of double white flowers rise above a low-growing cluster of fern-like leaves. Each 35c.

Statice (Sea-Lavender)

Latifolia. 2 ft. Summer. The leathery leaves form a tuft at the ground from which arise several stems bearing numerous small lavender flowers similar to baby's-breath. Give full sunlight. Flowers may be dried and kept a long time. Each 35c.

For best results use 3 plants of a kind in a group
